Financial Systems

IATA is the industry's clearing house

$371.5 billion total funds processed of members' money in 2012

Globally air transport…

- Supports 3.5% of global GDP
- Has an economic impact of $2.2 trillion
- Flies 2.6 billion passengers annually
- Carries 35% of world trade by value (0.5% by volume)
- Handles $5.3 trillion/48 million tones in cargo
- Supports 56.6 million jobs worldwide (8.4 million directly in aviation)

If aviation were a country it would rank 19th in terms of GDP, larger than some G20 members (= Switzerland or Poland)

Thank You
