Den nye normalen...

ROI på reiser og møter

Firmaer har nå større oppmerksomhet på hvert eneste aspekt av reiserelaterte kostnader, kombinert med et sterkt ønske om å måle og sikre at deres reiseprogram driver besparelser på bunnlinjen og leverer en solid Return On Investment – ikke bare monetært men også på reisendes produktivitet, komfort og sikkerhet

Modell sentrert omkring den reisende

Reisende er nå mer kostnadsbevisste og villige til å reise billigere, men har til gjengjeld høyere forventninger til teknologi og bekvemmelighet, og krever løsninger og tjenester som hjelper dem til å være mer produktive, komfortable og tryggere på reisen

Alternativer til reiser og møter

Selskaper vokser gjennom samhandling, og kundene må finne de riktige metodene for samhandling for å møte mål, budsjetter og forretningsmiljø – reiser eller å møtes virtuelt. Teknologiske utviklinger som muliggjør Telepresence og virtuelle møter gir kundene nye muligheter til å samhandle som optimaliserer deres reisekostnader
